Message from the Dean

Welcome to the W. Edwards Deming School of Business at William Howard Taft University. The School’s namesake, Dr. Deming (1900 – 1993), was a statistician, research scholar and international business consultant who contributed significantly to the disciplines of quality control and quality management.

Dr. Deming’s work has resulted in many well-known quality initiatives, including Total Quality Management (TQM) and the Four Steps of the Deming Cycle, also known as the "Plan-Do-Check-Act-Cycle" (aka Plan-Do-Study-Act), and Quality Circles. The implementation of his research and ideas has left a monumental impact on world-wide management endeavors, leading to efficiencies which are still experienced by major industries, academia, and governments, today.

As you engage in the study of Business at William Howard Taft University, I urge you to keep in mind the following quote from Dr. Deming: “Long-term commitment to new learning and new philosophy is required of any management that seeks transformation. The timid and the fainthearted, and the people that expect quick results, are doomed to disappointment.”

Likewise, the pursuit of your education within the W. Edward Deming School of Business is an expression of your commitment to improve and transform yourself, in preparation for the many opportunities that lie ahead in your life. Your business studies are the beginning of your life-long learning journey. My goal is to guide you through the joys of lifelong learning and the acquisition of knowledge that is foundational and essential to your success in the future.

Dr. Laura Pogue
Dean
William Howard Taft University, W. Edwards Deming School of Business

Dr. Pogue has been a dedicated business educator for over 15 years, providing business education in the corporate, online, and traditional classrooms. She has served in many leadership roles for accredited academic institutions, in addition to mentoring doctoral and graduate business students. Dr. Pogue has remained at the forefront of online education policies and initiatives and presently serves as a distance education specialist for several accrediting commissions, recognized by the Department of Education.
OVERVIEW OF THE PROGRAM

The Doctor of Business Administration Program is a practical, directed independent study program which emphasizes coursework in business leadership and management. The Program is of particular interest to mid and senior managers who desire high level education in the theoretical and practical aspects of operating a business. It focuses on how business is conducted in the United States but is open to students from Asia, Europe, and the Middle East who wish to operate a business in the United States or conduct business with U.S. firms and would benefit from a better understanding of U.S. business operations.

The objectives of the Program are:

1. To offer a program of coursework and practical exercises in business administration, leadership, management and sound operational practices that will enhance the professional and personal lives of its students.
2. To prepare professionals to serve in upper-level management and entrepreneurial objectives with a background of sound practices backed by current research and theory.
3. To employ faculty who are accomplished in their respective fields from both an academic and practical perspective.

Successful graduates of the Program will demonstrate:

- Application of advanced knowledge in the legal, theoretical, and practical aspects of operating a business.
- The ability to evaluate complex business ethical issues and related legal issues and make appropriate decisions and recommendations based on sound reasoning and analysis.
- Appreciation for making socially responsible and environmentally sustainable choices when designing and implementing business strategy.
- The ability to communicate effectively in a variety of modalities.
- Effective management of individuals and teams in the business environment through application of contemporary leadership theories and concepts.
- How to author a properly formatted and presented Dissertation or major practical project that represents a substantive research topic of original work or project that ties together the learning objectives of the coursework in a way that benefits an organization.

PRESENTATION

The Program is presented utilizing a directed independent study learning modality. It requires no classroom or seminar attendance.

Students have the option of concluding the Program with a traditional dissertation or the preparation of a Major Practical Project (MPP). Examples of an acceptable MPP would be a comprehensive business plan for a new business venture, a recommendation for a new product line based upon market research conducted by the student or an analysis of, and recommendation for, opening a new geographic market.

Each course in the Program contains a series of lesson assignments generally consisting of assigned reading and research/writing projects. Certain courses may require business research fieldwork. For example, a student may need to discuss the potential with a supervisor to gain that person’s perspective on developing a recommendation for a new marketing thrust.

Some courses will have Professional Development Projects that connect the theory of the course to the student’s work environment. These can become the basis for the student’s Dissertation/Major Practical Project.

The University believes evidence of computer literacy is required to earn a credible doctorate degree in any discipline. Technology also plays an important part in a student’s ability to submit assignments, communicate with administration, faculty, and fellow students. Accordingly, all students must have access to a computer with the minimum specifications set forth in the University’s General Catalog. Students are not expected to be computer experts. However, all students must have a working knowledge of Microsoft Windows®, Microsoft Word®, access to the Internet, and e-mail.

*William Howard Taft University acts to fulfill the objectives of the Doctor of Business Administration program through appropriate coursework, coupled with continuing direction, evaluation of student progress, and regular assessment of student learning outcomes, supervised and administered by qualified faculty.*
ADVANTAGES AND DISADVANTAGES OF INDEPENDENT STUDY

The advantages to independent study are obvious - flexibility in the study schedule, the ability to complete coursework from almost anywhere in the world, and the ability to interact with instructors and students with common interests from all regions of the United States and many foreign countries. However, independent study education is not the best alternative for all students. While there are exceptions and every individual is different, experience has shown certain personal attributes are often helpful or detrimental in the successful completion of distance learning courses.

Students who have been successful in independent study programs often have many of the following attributes:

- Are good at prioritizing tasks and often get things done ahead of time without being reminded and, as a result, are excellent time managers.
- Are highly motivated.
- Recognize independent study is an alternative means to achieve educational goals – not an “easy way” to achieve such goals.
- Have a strong desire to complete their educational goal.

Because students won’t be sitting in a classroom on a regular basis and won’t have an instructor or classmates nearby to remind them of assignments, a student must be fairly self-directed and conscientious about completing assignments to succeed in the Program. As with all things in life, the greater the motivation to do something, the greater the chance of success.

Individuals who possess the following attributes may not be a good candidate for an independent study program:

- Students who strongly prefer face-to-face interaction with instructors and classmates.
- Students who find classroom discussion is almost always helpful.
- Students who need feedback from their instructor immediately and often.
- Students with poor self-discipline and planning skills.

The first three points are not possible in our directed independent study modality. The flexibility that makes this type of program attractive to many students requires greater self-discipline and planning than in a traditional classroom program where the timing of the course is predetermined. While the University will assist the student in preparing a study plan, a student must exercise self-discipline in the completion of the degree requirements.

Commitment and self-discipline are the keys to success. No applicant will be admitted to the Program unless the University believes they have the academic ability to succeed. However, the degree of commitment and self-discipline cannot always be accurately assessed at the time of admission.

ADMISSION POLICIES AND REQUIREMENTS

A Master’s degree from an accredited institution is generally required for admission. In the context of this statement, “accredited” for institutions within the United States requires they be a member of an accrediting body recognized by the United States Department of Education. Applicants with earned degrees from institutions outside the United States may be required to obtain an evaluation from an approved evaluation service documenting that their education is equivalent to a master’s degree from an accredited institution in the United States.

An applicant may be conditionally admitted into the Program based on a completed Application for Admission form, student copies of transcripts reflecting the applicant’s highest relevant degree, documentation of the applicant’s professional work experience, and the receipt of two completed Doctoral Applicant Reference Forms. Official copies of all relevant college level credits received directly from the institution of origin will be required within 60 days of enrollment.

While current professional work experience is not a condition of admission to the Program, applicants do need to provide evidence of any previous professional work experience prior to formal admission.

The vast majority of the Program’s applicants are mature adults working in a variety of professional settings. Many have not attended college for several years. Consequently, prior class rank and grade point average are not significant factors in the admission process.

Applicants who do not possess a degree from a postsecondary institution where English is the principal language of instruction must demonstrate college-level proficiency in English through one of a number of University approved methods. Applicants wishing to transfer in credits or degrees earned at institutions located outside the United States must have their academic transcripts evaluated and certified by a National Association of Credential Evaluation Services, Inc. (NACES) member organization.
TRANSFER CREDIT AND CREDIT BASED UPON EXPERIENTIAL LEARNING

The acceptance of transfer credits between academic institutions lies within the discretion of the receiving college or university. Therefore, the University cannot guarantee that any course or degree completed at another educational institution will be accepted by the University nor can the University guarantee that any course or degree program completed at the University will be accepted as credit by any other educational institution.

Transfer credit is limited to 15% of the total doctoral credits required to complete the degree (nine units). The courses considered for transfer must be equivalent in both content and degree level.

No credit may be awarded for experiential learning (Portfolio Credit) in this program.

DEGREE REQUIREMENTS

To earn the Doctor of Business Administration degree a student must complete the courses outlined in the Curriculum section of this Catalog Supplement in good academic standing, pass the Qualifying and Comprehensive Examinations, and present a successful oral defense of the Dissertation or MPP.

The requirements may be completed in as little as 27 months. All requirements must be completed within seven years from the date of initial enrollment.

FACULTY

The University employs faculty qualified to undertake the level of instruction or course development that they are assigned. They possess degrees or credentials appropriate to the degree program and level they teach. A complete listing of faculty and their qualifications is set forth in a separate Catalog Supplement.

HOW TO ENROLL

To apply for admission to the Program, an applicant must complete the University’s Application form (www.taft.edu/applicationForm.html) and submit the $75 application fee. Unofficial transcripts are acceptable for the application process, however, official transcripts are required within 60 days of conditional acceptance into the program. Applicants must also include a resume or vita, 2 reference forms, and a personal statement.

Applications are generally reviewed weekly. Should additional information be required, the applicant will be contacted. If the applicant is conditionally accepted for admission into the Program, formal Enrollment Documents will be emailed to the applicant for review and signature through DocuSign. Matriculation becomes effective on the first day of each month.

Applicants are encouraged to call the Admissions Office with any questions regarding the enrollment process. 877-894-8238

INCOME TAX CREDITS AND DEDUCTIONS

Many University students may qualify for the Lifetime Learning Credit (equal to 20% of their qualified education expenses) on their federal income tax return. Additional information on the Lifetime Learning Credit can be found on the University’s website.

Some education expenses may also qualify as a business deduction for work-related education pursuant to Section 162 of the Internal Revenue Code.

It is recommended that applicants consult with their tax advisor or read IRS Publication 970 (Tax Benefits for Education) to determine how these credits or deductions might benefit them individually.

FINANCIAL INFORMATION

Tuition is billed at the rate of $420.00 per month during the term of enrollment. The obligation of students to pay tuition shall continue until the earliest of the following events:

a. Satisfaction of all degree requirements.

b. 48 billing months (four years).

c. Withdrawal from the Program.

d. Academic dismissal from the Program.

Continuation Fee

If students have not completed all degree requirements after four full years of active enrollment in the Program, in lieu of tuition, they will be assessed a continuation fee of $125.00 per month for the balance of the enrollment period or until they have satisfied all degree requirements.

</table>

Students may pay any of the above fees by check, Visa®, MasterCard®, American Express®, or Check.

The cost of books and materials, other than each course syllabus, is not included in the tuition. Most books and materials may be purchased at local colleges, retail bookstores, directly from publishers, or over the Internet. The cost is estimated to average approximately $150.00 per course.

Employer Acceptance/Tuition Reimbursement

The University will provide reasonable documentation to students seeking tuition reimbursement from their employer. However, if employer acceptance or tuition reimbursement is a material consideration, the University recommends applicants ascertain the policy of their employer prior to enrollment.

Financial Aid/Loan Deferrals/Grants

Current information on financial aid is set forth on the University's website. Enrollment in the Program will generally qualify students for payment deferrals on existing federally insured student loans. Applicants seeking deferrals on existing student loans should check with their lenders prior to enrollment.

The University participates in the Department of Veterans Affairs (VA) and Armed Forces Tuition Assistance (TA) education programs designed specifically for military active duty, reserve, veterans or spouse and family. This Program does not qualify Student for financial assistance under any Title IV Federal Student Loan Program.

THE DISSERTATION OR MAJOR PRACTICAL PROJECT (MPP) AND ORAL DEFENSE

The Dissertation or Major Practical Project is the culmination of study in the D.B.A. program designed to demonstrate the student’s ability to bridge theory and practice, to display their knowledge in a specialized area of study, and to demonstrate creative skills in defining a problem and conducting original research to define and/or provide a solution to the problem.

The Dissertation or MPP proposal will generally require several drafts, each one revised in response to feedback from the Doctoral Committee Chair, committee members, and the Institutional Review Board (IRB), if necessary.

When the Chair determines that all Committee suggestions have been incorporated or at least carefully considered (and it has been approved by the IRB, if necessary), he/she will consult the committee members for agreement that the proposal is ready for defense/presentation to the Committee. The oral defense of the dissertation or project is scheduled at the mutual convenience of the student and the committee members. The student is expected to perform a 30 to 45 minute presentation that includes the student’s rationale for selection of the topic, a brief explanation of the Statement of the Problem, an explanation of the research methodology, a summary of the results of the research, and recommendations for further research/follow-on and a plan for using the research results or implementation of the project.

Following the presentation, the Committee will have the opportunity to ask questions and discuss any issues that might have been raised in the presentation. The student and committee members may have guests attend the oral defense. Guests will only be in attendance as observers and do not enter into the discussion of the research. The oral defense is an opportunity for the student to display the knowledge gained as a result of performing the research/project and to confidently present that information in an organized, coherent manner. It is also an opportunity to make recommendations for further research/work not covered in the document.

The oral defense may take place in the offices of the University or via an approved electronic medium (typically a webcam platform such as Skype™).
The Doctor of Business Administration (DBA) Program

ANSWERS TO THE MOST FREQUENTLY ASKED QUESTIONS

1. Q. How long does it take to complete the Program?
   A. The minimum completion time for the Program is 27 months. Since all courses are self-paced, the number of weeks necessary to complete a course may vary considerably based on the amount of time per week a student devotes to study and the professional experience of the student. Students may not complete the first course in less than one and one-half months from the date of initial enrollment. Thereafter, a student may complete one course for every one and one-half months of cumulative enrollment. (e.g. a student who enrolled on January 1st could submit three courses by May 15th or four courses by July 1st, etc.) The above example demonstrates a minimum completion schedule. Experience has shown that the average student will progress at a slower pace. It is expected the average completion time of the Program will approximate 48 months. All degree requirements must be satisfied within seven years from the date of initial enrollment.

2. Q. I'm employed by a large international corporation and have no interest in small or developing businesses. Is this the right D.B.A. Program for me?
   A. Yes, the focus of the Program relates to the goals, objectives, concerns, and problems of businesses of all sizes and is designed for existing, or aspiring, managers.

3. Q. Will I be required to attend seminars or other classroom instruction?
   A. No.

4. Q. What are "Qualifying Courses"?
   A. The first three courses in the curriculum are known as qualifying courses. A student must successfully complete these courses and take and pass a Qualifying Examination before they proceed on to the core and elective courses. The Qualifying Examination is a three hour proctored test that covers material covered in the qualifying courses.

5. Q. How many hours does it take to complete a course?
   A. The amount of time it will take an individual to complete a given course will vary depending upon the background of the individual. For most individuals the amount of time necessary to complete a course will approximate the amount of time students in a classroom program covering the same subject.

6. Q. In terms of educational quality, is DEAC accreditation equivalent to regional accreditation?
   A. Yes, the official at the United States Department of Education responsible for the recognition of accrediting bodies has written that recognition granted by the Secretary of Education to DEAC is “identical” to regional accrediting bodies. We can provide employers or other interested parties with a copy of this letter. The Council on Higher Education Accreditation (CHEA) holds a similar view.

7. Q. Does the University recommend a minimum number of years of occupational experience in education before commencing the Program?
   A. Yes, it is recommended that an applicant have a minimum of five years of management or entrepreneurial experience before enrolling. The Program emphasizes real world experience in business settings. Therefore, those with related experience will find the coursework very relevant. Without such experience, students may find it more difficult to relate the coursework to their business settings.

8. Q. How soon can I get started?
   A. The Program utilizes an open enrollment policy. Accordingly, students may commence study on the first day of any month. Approved applicants may delay enrollment for a maximum of six months. If an approved applicant has not enrolled within six months of acceptance, a new application will be required.

COURSE DESCRIPTIONS

Qualifying Courses

BUS602 Business Research (4 Units)
A fundamental key to successful management is information. Knowing what information is needed, when it is needed, how to collect it, and how to interpret it can be the critical process to success. More than basic decision making research; managers should be able demonstrate the capacity to add unique knowledge to the national body of knowledge of business. This course will focus on practical theory and processes that managers can use to assist in the decision making matrix. It will also provide the foundation for developing the practical projects of each course and the program. The process will include analyzing the information, evaluating the results, and developing a strategy that leadership can implement.

Prerequisites: None.

BUS603 Strategic Planning and Implementation (3 Units)
This course focuses on the key role of management – strategic planning. This course explores the process of looking at the broad view of strategic planning and bringing the plan to fruition through effective leadership. The manager must have both the vision, and the skill of implementation to be effective.

Prerequisites: None.

MKT603 Problems and Methods in Marketing Management (3 Units)
This course focuses on how managers identify, resolve, and manage marketing related problems from a management perspective. The course looks at marketing issues from a corporate global perspective as do managers with an eye to the interrelationships marketing decisions will have on the entire business.

Prerequisites: None.

Core Courses

Prerequisites: Successful Completion of all Qualifying Courses and the Qualifying Examination.

MGT607 Organizational Design (3 Units)
A key to business success is building an organization that meets the market and business philosophy. Managers are constantly watching and adjusting their organizations. This course will provide insights on how to build, change, and
organize business structures.

Prerequisites: Completion of Qualifying Courses.

**MGT 605 Leadership Theory and Practice** (3 Units)
This course offers a comprehensive study of leadership theory and practice. Topics include the leader-follower relationship, the effects of gender, personal qualities that affect leadership, positive and productive leadership styles and strategies, and substitutes for leadership.

Prerequisites: Completion of Qualifying Courses.

**FIN602 Designing Economic Business Strategies** (3 Units)
Most managers have been developing budgets and looking at the business financial structure. Managers need a broader perspective so they can raise additional capital for expansion, plan for economic shifts in the national or world economy, and insure financial stability for the entire business entity. This course will explore these and other related topics.

Prerequisites: Completion of Qualifying Courses.

**HMR605 Corporate Social Responsibility and Ethics** (3 Units)
The old concept of laissez-faire in business is a thing of the past. Businesses are under pressure from any sectors. One of them is corporate social responsibility and ethics. This course explores the definition of these terms, how the concepts have evolved over the recent decades, and how managers must incorporate them as part of their business operations.

Prerequisites: Completion of Qualifying Courses.

**MKT605 Marketing Research for Managerial Decision Making** (3 Units)
Research is commonly looked at as a marketing tool and this course is a marketing course. The course goes beyond the basic marketing decision making process and identifies processes that managers must use including knowing what questions to ask, being able to identify which issues are critical, and bringing the right resources together to analyze and recommend the best solutions.

Prerequisites: Completion of Qualifying Courses.

**BLW602 Business Law** (4 Units)
Everything a manager does will have legal implications for the business. Personnel, contracts, product liability, international trade, taxes, and financial development are some of the key areas. This course explores the critical areas of business law with a focus on providing managers with enough knowledge to know how to avoid the obvious legal problems and when to bring in the legal experts.

Prerequisites: Completion of Qualifying Courses.

**BUS700 Comprehensive Examination** (1 Unit)
This proctored examination, which can be taken anytime between the completion of the core courses and the Dissertation or Major Practical Project Proposal, is designed to measure a student's knowledge and understanding of the curriculum content that has been covered in the Program. Students must pass the examination prior beginning the Dissertation or Major Practical Project Proposal.

Prerequisites: Completion of Qualifying Courses.

Dissertation or Major Practical Project Courses

**DIS701 Dissertation / BUS701 Major Practical Project Proposal Proposal** (3 Units)
This course will walk students through the organization and design of a formal proposal including a substantive research topic of original work. An accepted proposal constitutes the framework for the Dissertation or the Major Practical Project. In the case of the Dissertation, the proposal constitutes the framework for the Statement of the Problem (Chapter 1), Review of the Literature (Chapter 2), and Research Methodology (Chapter 3).

Prerequisites: Successful Completion of the Comprehensive Examination (BUS700).

**DIS702 Dissertation** (12 Units)
The successful completion of a Dissertation results in a quality research effort, documented and written following American Psychological Association, (APA) guidelines, an oral defense consisting of a PowerPoint presentation presented to the student's dissertation committee, and written in a format ready for publication. The completed dissertation document is a five-chapter dissertation beginning with the Introduction to the Problem, Chapter 1; Review of the Literature, Chapter 2; Research Methodology, Chapter 3; Research Findings, Chapter 4; and the Summary, Conclusions, and Recommendations of the Researcher, Chapter 5. In addition, the final document will include the frontal pages as described in the University's Dissertation Handbook, as well as necessary appendices, references, and other appropriate documents.

Prerequisites: Approval of Proposal (DIS701).

**BUS703 Major Practical Project** (12 Units)
The Major Practical Project (MPP) is an option for those who prefer to do a project related to their professional life. MPPs are no less structured or time consuming than a dissertation. Dissertations generally focus on significant research while the MPP deals with some specific problem or challenge the student's business is dealing with.

Prerequisites: Approval of Proposal (BUS701).
Elective Courses

BLW607 Legal Environment for Managing Employees (3 Units)
The leadership role in human resources management is full of legal pot holes. This course would benefit human resources managers who need to understand the role of managers in the dealing with the complex world of legal employee management.
Prerequisites: Completion of Qualifying Courses.

BUS 605 Global Strategic Management (3 Units)
Managing a global business is much different than a U.S. business. This course delves into how managers, as part of the decision making process, investigate and integrate knowledge about social and business cultures, management techniques, and local government regulations as part of how to manage their international business units.
Prerequisites: Completion of Qualifying Courses.

BUS606 Negotiations and Dispute Settlement (3 Units)
Negotiations and dispute settlement are part of every business. Negotiations can be with suppliers, distributors, employees, or foreign governments. This course provides managers with theory and philosophy of negotiations and dispute resolution so they can provide a total organization policy on how their employees are to operate in these situations.
Prerequisites: Completion of Qualifying Courses.

FIN603 Conceptual Foundations of Accounting & Finance (3 Units)
Part of the financial role of managers is to lead the organization with the best financial program possible. In order to do that, managers must have a basic understanding of the accounting and finance role in the broad scope of business leadership. This course will provide a conceptual foundation for effective financial planning.
Prerequisites: Completion of Qualifying Courses.

FIN604 Global Economy (3 Units)
This course will be useful for managers who are, or will be, exploring international trade. The course focuses on the philosophies and actual operations of different foreign economic models. Using this knowledge will improve the decision making process for making the international move.
Prerequisites: Completion of Qualifying Courses.

MKT604 International Marketing (3 Units)
International marketing in the context of this course is the process of making leadership decisions in the international business world that will benefit the corporation. The manager has many issues to consider when moving into foreign markets starting with the questions “should we,” “if so, where,” and “what’s in it for us.” Additional considerations include legal, financial, and organizational impact.
Prerequisites: Completion of Qualifying Courses.

MKT606 Competitive Analysis and Strategy (3 Units)
Dealing with competition is fundamental to operating a business. This course demonstrates how managers must be able to look at the competitive environment. It includes a more sophisticated perspective on how to recognize the value of competitors, how competitive decisions can have both positive and negative consequences, and how to lead the business to gain competitive positions.
Prerequisites: Completion of Qualifying Courses.

HMR606 Management of Organizations (3 Units)
This course investigates the more specific aspects of organizational management. It will provide insights in the techniques that managers can utilize to improve employee performance and job satisfaction.
Prerequisites: Completion of Qualifying Courses.

MGT603 Leadership Solutions for Innovation, Change, and Decision Making (3 Units)
One of the most difficult tasks of any manager is implementing change. In reality, some of the best change can come from the ranks. Managers must know how to bring the ideas for change to the surface, organize them, and then present them in a manner that encourages the employees to adopt them. The course will explore techniques to help maximize this process.
Prerequisites: Completion of Qualifying Courses.

MGT604 Global Business Practices and Challenges (3 Units)
Global or international business is a hot topic. Most businesses know they must join the globalization process but many don’t know how. This course will provide insights on how managers can begin to develop international business projects by knowing how to do it and knowing some of the downside issues.
Prerequisites: Completion of Qualifying Courses.
